Thanks Jeff,

I did hear about the impending sale and have been wondering if the plants will continue operating after that. EPA has been working on the Merrimack Station permit for 13 years! And we continue to work on the response to comments (some sections are nearer to completion than others) but we aren't close to issuance at this point. Monadnock Paper is in the review process right now – after I meet with Damien next week, I will send you the documents for your review. Hopefully, it can go public within a couple weeks after that.

As far as surviving this long snowy winter, we just have some roof damage like almost everyone else... but guess what?

It's spring!

Happy Spring! Hope all's well in New Hampshire.

-Sharon

Hi Sharon, I hope you survived the long snowy winter!

You've probably heard that PSNH is now called Eversource Energy. FYI, they are planning on selling Merrimack Station and there other power plants and hyro facilities. See

<http://www.concordmonitor.com/home/16069514-95/eversource-energy-agrees-to-sell-all-its-nh-power-plants>.

What's the status of the Monadnock Paper and Merrimack Station draft permits by the way?

Jeff
